NEW RELEASES

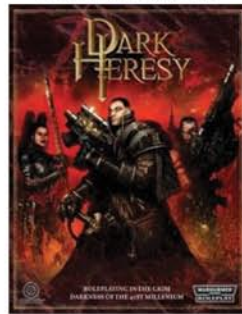

This lavishly illustrated 96-page book gives role-playing game fans a unique, behind-the-curtain glimpse into the making of the **Dungeons & Dragons 4th Edition** roleplaying game, coming this June.

Codex: Orks is the complete guide to collecting, painting, and playing an Ork army in **Warhammer 40K**. Barbaric and savage, the Orks live for the moment when they can charge headlong into battle, screaming deafening war cries and firing volleys from their crude but effective guns.

Whether you're a fan of Elves, Giants, Goblins or Merfolk, on February 1st **Morningtide** will bring your tribe a whole new set of possibilities. **Morningtide** expands on the themes introduced in **Lorwyn** and unveils three brand-new mechanics to **Magic**: Kinship, Reinforce, and Prowl.

Warhammer 40K: Dark Heresy is the first book of the long-awaited **Warhammer 40K** RPG series. This 400 page tome is an ideal introduction to the dark universe of the 41st Millennium, and it marks the launch of a new game system that players have been anticipating for over 20 years!

Ancient evil lurks in the depths of **Hellfire Citadel**. Imprisoned, the mighty pit lord **Magtheridon** bides his time, awaiting the day his bonds are broken so he may take his revenge. **Magtheridon's** reckoning is at hand! **Upper Deck** continues its celebrated line of **Raid Decks**, opening up an entirely new dimension of the **World of Warcraft TCG!**
